FIGHTING THE CONCEALED POISON. Look at the source, not at the symptoms. Remember that symptoms are the evidence of Nature's conflict with disease. They tell us that our animal powers are fighting the concealed poison. Aid and reinforce them with that genial and powerful restorative, Bristol's Sarsaparilla, and the result cannot be doubtful. No disorder, not organic, can resist such an alliance. The enemy is in the veins. There this great detergent will find it, and thence expel it. That done, the cough that indicates consumption, the sores that denote the presence of scrofula, the terrible suffering of body and mind which accompany a diseased stomach, and an unnatural condition of the bowels, disappear. This pure and potent vegetable and antiseptic tonic and alterative cleanses, regulates, and invigorates the whole internal organisation, and the cure is complete. By the use of Bristol's Sugar-coated Pills at the same time as the Sarsaparilla, the stomach and bowels will be cleansed and strengthened, and the disease more speedily thrown off. cj...ml

OUR ANNIVERSARY.

In commencing to-day our 14th year we fulfil a pleasing duty in saluting the readers of the STANDARD, and at the same time expressing our warmest sympathies with the country in whose destinies we bear a part. If we look back to that period before the battle of Pavon, when our paper made its first appearance, and compare the position of Buenos Ayres then with what it is to-day; or if we call to mind the small number of foreign enterprises in 1861 with the aggregate of capital, industry and intelligence that the European community now represents in the River Plate, we shall find reason for admiration that such progress has been made in little over a dozen years.

It may or it may not be that some part of this progress is due to our efforts. It may be that another with the advantages at our command would have, ere this, written his name in the Temple of Fame and earned the gratitude of posterity. Suffice it to know that the country advances in education and commerce, and that the foreign community with which we are more intimately connected has increased tenfold in wealth, numbers, and influence. In 1861 neither the English nor any other foreign community was able to support a daily paper; now we have papers in English, French, German and Italian. In 1861 there were but 2 banks in Buenos Ayres; now there are a dozen. In 1861 we had one steamer monthly from Europe, now we have twenty. In 1861 the revenue of the Custom-house was hardly 4 millions; last year it was nearly 20 millions. In 1861 we exported 58 million lbs. wool; last year 216 million. In 1861 we had 6,300 immigrants; last year 76,000.

The progress of Buenos Ayres is like that of a large and prosperous firm in which the STANDARD is one of the oldest partners. Not long since it was declared with reference to a dispute in Congress that half the loans and enterprises got up in London for the River Plate were mainly indebted to our paper.

At any rate it may be asserted that any person in India, Australia or other part of the globe, on taking up the STANDARD will be able to form an exact idea of the position and sentiments of the Foreign Public of B. Ayres. More than this, it has succeeded in promoting friendly feelings among people of different nationalities, and this is worth all the banks, railways and joint-stock companies that could be formed in a century, or all the statues ever raised to public benefactors or distinguished men from the time of Marcus Aurelius to that of Peabody.

The STANDARD is to-day a power, an institution in Buenos Ayres; its editors are nobody, seeking neither office nor applause, but intent on doing the work confided to them. If we are allowed in the intimacy of our own hearts a gratifying reflection it is, that no good citizens ever had reason to accuse us of doing him an injury, and that no personal like or dislike has ever influenced us to sway the balance of good or evil report.

We embrace this opportunity to exchange friendly assurances with fellow-workers in the task of journalism, and in especial manner with the *Daily News* and our French, German, and Italian colleagues, with whom we have so much in common. All have followed in the wake left by our vessel; all are deserving of the success which public protection alone can give; and all are, if we may be permitted to pass judgment, conducted in a manner equally creditable to B. Ayres and to themselves.

Our barque has so long weathered both storm and sunshine that we need not recommend her to public favor. She is of seasoned timbers, well fastened, registered 3,000 tons, chartered by Messrs. John, Sawney, Patrick, Jonathan & Co., and not only the fastest sailer in these parts, but as tight-looking a craft as any man could wish to be master of, and her compasses as true as the North Pole.

LONDON LETTER.

(From our own Correspondent.)

April 3rd.

The week before Easter is at all times a solemn season. That political rest we all sighed for when we turned out the impulsive, vacillating Mr. Gladstone, we have already attained. The Conservative King Log reigns supreme. The wealthy men of business who were beginning to hide their money bags from the clutches of Mr. Odger and friends, now launch out freely, and great is the demand for opera boxes and court dresses. Indeed there is so much money in Lombard-street, and so very little business doing at the Stock Exchange in ordinary securities, the opera agents in Bond-street, the costumiers of Long Acre, and the mothers of marriagable daughters, are opening branch houses in the city, and publishing their quotations. Stalls for the Czar-night at Covent Garden are at 100 per cent. premium. A court suit to fit a fat contractor, with sword complete, warranted not to get between the legs, and a stomacher for his wife, warranted not to burst, are at famine prices. Younger sons and bachelor men of title are almost out of the matrimonial market. With the late rise in coals, iron and rents, the aristocracy have become fabulously rich, and are independent of 'mesalliances' with women of the trade caste. Lord Salisbury since his advent to power has expressed his determination to do his utmost to preserve the dignity and exclusiveness of his order, and to prevent the growth of that gangrene in our institutions, the fusion of classes, which had been fomented by half a century of Liberal misrule. Only by the tears and threats of Mr. Disraeli was he induced to forego the pleasure of scratching from the Lord Chamberlain's book at the last levee the names of two wealthy brewers and a highly respectable licensed victualler. As Lord Salisbury said, very angrily, "it is not the men themselves; they might at least be politically useful, but their wives and daughters are impossible." Mr. Disraeli quietly observed that he had heard that learning before in 'Sybil' or 'Coningsby.' Then "said Lord Salisbury," why not adhere to your written opinion." "What I have written, I have written," rejoined the Premier in Hebrew, and he added in English, "It is not now, my dear Marquis, a question of opinion, but one of time, and particularly one of 'place!' Let us learn wisdom from thirty years of adversity." "Salisbury will never learn wisdom at all," said Derby who had joined his colleagues. "I have," he continued, "been bowing out a deputation from Buenos Ayres with that bore Beresford Hope at its head; and what do you think they wanted me to do?—to renew the grant to English Episcopalian churches abroad Lowe had knocked off." "Of course," said Lord Salisbury, "No, I did't," said Lord Derby," I showed them a paragraph in the last Buenos Ayres STANDARD, stating that the American community in that city had just built a beautiful church of their own. The Americans, I observed, had no particular grant." "No, a General Grant," smilingly said the Premier, as he slipped away with the Marquis. For a more complete account of the deputation to Lord Derby and his reply, I refer you to the columns of your respectable contemporary, the *Brazil and River Plate Mail*.

For a full report of the last meeting of the shareholders of the Central Uruguay Railway I refer you to 'Herepath'. The substance of it is more or less what I told you in my last letter. The shares however went down subsequently 3 or 4 per cent. The Uruguay Loan as you know is hopeless. Dr. Perez Gomar returns to Montevideo.

I am sorry I can give you no information as to the success of the Anglo-Argentine Bank limited. How it was taken up and launched is a mystery. The first issue is a trifle, only one million sterling. The nominal capital is 2 millions to be subsequently raised to 8 millions! to undertake a bank in Salta, another in Santiago, and 1,000 miles of railway! It takes away one's breath. The concessionaires seem to be a Mr. Edward Buckmaster Coe and a Mr. Benjamin Dowel, but who they represent I cannot tell. You can enquire of the only persons we know amongst the names in the list of directors—Mr. V. Trelles, Mr. M. Rocha and Dr. Louis N. Peña of B. Ayres.

The *Times* City Article tells us we are passing through the tail of a comet without knowing it; that is, we are unconsciously in the midst of a periodical panic. If so we hope it will be no worse; and, as the City Article tells us, we can look forward to shorter periods between each panic, and to a gradual diminution in the severity of each when it does come. With the general idea of the writer I agree, but am greatly afraid that the stagnation which exists is not the tail of the comet, unless, as sometimes happens, it comes tail foremost. There has been a heavy failure in the iron trade, and we may look for more. But that is about the only trade in which there has been much temptation to speculate. As a rule the business of the country for the last few years has not been speculative, and failures in the iron trade cannot be looked upon as symptoms of a coming panic. The *Times* on Saturday last had a most alarming article on the political relations of France and Germany. I recommend you to look it up and reprint.

The communists Rochefort, Jourde, Graissot, Balliere, Olivier Pain and Grandille have escaped from New Caledonia to Australia, and are now on their way to London, via San Francisco. They swam 500 yards to a boat in readiness to receive them, and under the eyes of their gaolers had for a long time been practising swimming for that object. There were about fifteen engaged in the plot, but only those I have mentioned escaped.

There are no evening papers to-night.

LATEST TELEGRAMS.

London 5th. Sir Garnet Wolseley's speech at the banquet given to him is favorably commented on.

Down to last evening the fund at the Mansion-house for the relief of Bengal and Behar amounted to between 68,000*l.* and 69,000*l.* Of that 60,000*l* has already been transmitted to the Central Committee in Calcutta.

Berlin, April 1.

Prince Bismarck—to-day being the anniversary of his birthday—received very numerous congratulations from all, even the most distant, parts of the Empire, including a congratulatory telegram from the King of Bavaria. The Prince received the President of the Reichstag, Herr von Forckenbeck, previous to his departure for the Conference to be held at Breslau.

Philadelphia, April 2.

The Senate has voted in favour of increasing the greenback currency to $400,000'000 and the National Bank currency to $400,000,000, thus increasing the former by $18,000,000 and the latter by $46,000,000.

Calcutta, April 1st. More than sufficient means are at hand to meet the famine, except at Tirhoot: we have collected 120,000 tons of grain, and the railway takes 35,000 tons daily to the suffering districts. Charitable societies have given employment to 700,000 people.

Paris, 4th. MacMahon intends to dismiss the Governor and employees of New Caledonia for having allowed the Communist leaders to escape.

Bordeaux, 4th. The Carlists have beaten Serrano, and an armistice is declared for three days.

TAXES IN ENTRE RIOS.

It may appear strange to most of our readers, and yet we have it on authority that seems reliable, that the Contribucion Directa for the present year is being collected in Entre Rios on a basis that has hardly any parallel in the annals of tax-gatherers. For instance the law ordains that you must pay on the same amount of land and stock as in 1872. Some people have not to-day one-fourth the number of cows, sheep and horses which they had two years ago, but they are obliged nevertheless to pay all the same.

The hardest case we know of is a gentleman in Buenos Ayres who recently took a fancy to estancia life, and bought the house and land of Mr. N. who left for Europe. The latter had sold all his sheep over a year before. When Mr. B. the new purchaser went some weeks since to pay Contribucion on his estancia the assessor told him he had also to pay on so many thousand sheep. In vain Mr. B. argued that he could not be expected to pay for sheep that he never owned, and shewed that he has not yet put a sheep on the farm, nor has there been one there for over 12 months. The tax-man was as inexorable as an Irish land-agent, and our friend had to pay the tax after the new fashion.

The Federal Court of course is open to such parties, for redress, but it may be cheaper to pay the unlawful tax than to fee lawyers and go through an expensive lawsuit, with all the headaches and annoyances inseparable from litigation, as well as the impolicy of going to law with the local authorities whose protection you may some day stand in need of.

There is then practically no remedy from an abuse of this kind, until the force of public opinion and public ridicule be brought to bear on the Governors, legislators and tax-collectors of the provinces, who at present act so often in defiance of the clearest principles of common sense. Perhaps when the elections have blown over some of our city-editors or members of Congress will find time to call attention to such absurdities as the case now complained of. It is not so long since some of our upper Provinces, in defiance of the Constitution, levied an export tax on all produce crossing the provincial frontier. The matter caused much noise, but the abuse has been swept away with other cobwebs of old-fogy legislation that the besom of a Free Press is sweeping out of the nooks and corners of the Temple of the Law.

EDITOR'S TABLE.

We enter to-day on the second year of our editorial 'teens,' and beg to salute our subscribers, readers, colleagues and the Public generally on the occaion. Editorial remarks on the anniversary of a paper are almost as difficult to string together with adequate propriety as a Queen's Speech, so we will confine ourself, in this section at least, to remarking that our relations with foreign powers (subscribers, readers and colleagues) continue on the most friendly footing; that the 'surplus' for the past year has been remarkably satisfactory, and that we hope our readers will think they got value for their money. If not, it has not been our fault, as the consumption of bad pens, indifferent ink and good paper during the twelve months was something terrific.

Our London Letter in another column touches on things in general, but nothing very particular. It appears that 'going to Court' is not so easy a process for the 'great middling' as it used to be. Some of the 'blue bloods' in the Cabinet absolutely want to turn their backs on Beer, the mighty liquor that seated them in office. The Premier is keeping his eye on Buenos Ayres, and reads the STANDARD every morning.

The Tiber sailed yesterday with a rather fat amount of gold coin, a heavy mail and many passengers, amongst whom were Mr. Charles Lumb and family, Mr. Alfred Lumb and others, all of whom had a crowd of friends and well wishers to see them off. The day was a delightful one for embarking, and the travellers looked in great spirits.

We refer in our leading columns to the somewhat original and wholly monstrous system of taxes now prevalent in Entre Rios. That unfortunate province has had a good deal to go through of late years, but this is no excuse for the wholesale plunder of innocent settlers through a system of taxation as unjust as it is ridiculous.

The first news in town yesterday morning was a telegram from Mr. Stand-by O'Gorman to this paper announcing a wholesale jail delivery from the Cerro, 140 of the blackest scoundrels on the continent having broken loose from that ricketty prison. They all got clean off, but pursuit was at once instituted, and some of them may be recaptured.

The French mail steamers too often bring a scanty supply of newspapers, unlike the British, which always deluge us with them. The Senegale brought scarcely any papers of latest dates, and there is painful anxiety amongst the Spanish residents, and a desire on all sides to hear how the tug of war is going on at Bilbao. Both sides are displaying the most heroic valour, the Basques fighting with the same tremendous 'vim' and desperation as their ancestors when led across the Alps by Hannibal. The carnage must have been fearful when the whole of Holy Week was devoted to burying the dead. Fourteen days ceaseless fighting beats the prolonged slaughter before Richmond in the U. S. civil war. It is a pity to see such valour wasted in fratricide The news for produce put wool men in exuberant spirits, though it is only a 'reflected light' that shines on them, as all the last clip has been sold long ago, and it is the dealers in Europe who are securing the benefit of the rise. Money is 'still the same' in London, but everyone says the next move will be upwards, and there is an old saying which declares that "what everyone says must be true." "Quien sabe!" We have known that wonderful personage Everyone tell some of the most awful 'crammers' on record.

"Do you see that gal over there!" asked a native Georgian of a traveller. "Yes," was the reply. "Wall, though she ain't twenty year old yet, stranger, that gal's raised a large family. Twan't her own though; it was her mother-in-law's; and she raised it with a keg of gunpowder in the cellar."

The most distressing anxiety is manifested in Good Samaritan circles as to the fate of the Scientific Expedition sent out from England by the unfortunate holders of Paraguayan Bonds, to see if that country was really worth anything, and if there is a ghost of a chance of their getting any interest on their cash. By last week's accounts from Asuncion the Commissioners were reported to be as high as they could go 'up a tree,' in a pecuniary sense, and there seemed scant hope of the Government helping them down again. The advices published yesterday are all about row and revolution, and not a syllable as to the fate of the men of science. The legendary flattering tale told by Hope was a mere mutton-chop to that which the Scientific Commissioners will relate of Paraguay in London, if they ever reach that centre of the earth again.

His Royal Highness Prince Thomas Albert Victor of Savoy, Duke of Genoa, is now daily expected at Montevideo from the West Coast, and the Italians of the sister city are making extensive preparations to do him honor. His countrymen in Buenos Ayres are also determined, should he visit this city, to give him a reception worthy of his exalted rank and the influential number of Italians in this country. His Royal Highness is nephew of King Victor Emmanuel, and son of his Majesty's brother the late Prince Ferdinand, Duke of Genoa; he is in his 21st year, being born in 1854. The young Duke's elder and only sister, Princess Marie Marguerite de Savoie, is married to her cousin Prince Humbert, Prince Royal, heir to the crown of Italy.

The latest news from the Eternal City is that the Pope intends to create shortly another batch of nine Cardinals. Amongst the prelates who are to receive a red hat is Monsignor Manning, the Roman Catholic Archbishop of Westminster.

EPITAPH ON AN ARTIST.

He took a splendid photograph,
His pictures would not dim;
He took an awful whooping cough,
And death came and took him.

Our estimable relative Uncle Sam is never content unless he is whipping Creation, especially the "darned Britisher," in some big way. The latest 'notion' of our go ahead cousins is to build an iron tower 1000 feet into the clouds, with a base 150 feet in diameter, and an apex of 30 feet, to commemorate the centenary of their Almighty Republic. The 'strudur' will be twice as high as any church steeple in the world. There will be steam machinery to raise visitors to the top of the column in three minutes and let them down in 5 (If anything ever goes smash we bet they wont take half that time to come down.) It is said that this monster monument will be erected in Philadelphia.

A Chilian paper—the *Patria*—scouts the idea, set afloat by alarmists in that country, that it has anything to fear on sea from either the Argentine Republic or Peru, or even from both combined. It gives an account of *all* the "ironclads" now building in England for this country and laughs at the idea of their daring to tackle the Chilian navy. Peru has only ordered two gunboats like the Covadonga, and the following is the list of the Argentine Navy of the future: Two gunboats, building at Laird's of Birken head, to carry two hundred pounders each; both vessels of wood and without any armour whatever; Two monitors, like the Huascar, each with tower for two guns throwing 300 lb. bolts; both vessels with armour only 4½ inches in thickness; and lastly two unarmoured vessels, rig and tonnage not stated, for cruising in the rivers. Meanwhile the Admiral Cochrane and the Magellanes, both building for Chile, are ironclads of the first rank, with a respective speed of 13 and 11½ knots per hour, with the thickest armour plates known, and every improvement. Admiral Goni had written from London that he would sail for Chile as soon as Mr. Albert Brest Gana ordered him to receive the ships.

Congress will meet in a few days. Already the well known figure of the provincial Congressman is seen in the streets, eating houses and theatres; and a few more honourable members from "up the country," expected to-day or to-morrow, will make up the legal quorum of 44 and enable Parliament to set to business. People look forward to a dull session. The expiring Administration cannot be expected to initiate much legislation: there will be no railway bills, the country having too much work of that kind on hands. The only thing to be anticipated with certainty is another revised edition of the irrepressible Capital Bill.

The City Improvement contractors appear to be pushing the works along famously. Some of the Tramway Companies are very loth to take up their rails; but this won't do. Up the rails must come, if the works are to be finished in time. "Pro bono publico" should be the motto of all.

The Bourgogne has brought out a lot of instrumentalists, dresses etc. for the coming campaign at the Opera House; the artistes are expected in a week. The 'belle' of the company, Miss Stella Bonheur, (her real name is Taylor) is a halt countrywoman of ours, being born in New York in 1849 of Irish American parents; she is very pretty. Gottschalk, the spoiled piano pet of South America, was the first to discover this young lady's talents. She began her career as a concert singer in 1866, but since that time has shone on the lyric stage in California, New York, Paris, Moscow, Turin, Berlin, Hamburg etc. She created such a furore in La Favorita at Berlin that the Queen of Prussia sent for her and personally congratulated her in the Royal box, amidst the cheers of the audience.

Parties possessing swamps full of water rats and tigers on the river Lujan were in great blood yesterday at the news that the Northern Railway intends building some extra workshops about there. We believe the change contemplated is to run the line on for a few hundred yards; but the new works will be erected opposite Mr. Madero's house, and some distance from the bend in the river.

There was a neck and neck latest paper race yesterday between the two leading magazine firms—Dear Daws and Messrs. Jacobsen and Soderstedt. The latter favoured us with the *Times* up to the 4th of April and the *Graphic* (a splendid number) and *Illustrated News* of same date. Daws sent us the same and Reynolds's paper of Sunday the 5th, thus winning a desperate and well fought newspaper race by a neck—a day we mean. Are you not ashamed of yourself dear Daws, to break the Sabbath by winning a race with a Sunday paper?

Letters from London state that preserved meat men in that quarter were looking out with feverish anxiety for the arrival of Mr. Fulton Mendez's steamer *North with the first cargo of River Plate Cows.* The Australians are quite chop-fallen at the failure of their attempt to export frozen sirloins and beefsteaks.

The 'porteros' in the National Government offices are clamouring for an increase of pay. Wages in the outside market are falling, still a National porter is a man of consequence, and can not be expected to live on the same salary as the doorkeeper of a monastery or newspaper office.

An unfortunate gentleman from Boeotia, named John Garcia, lost the tidy little sum of $350,000 m|c. the other day between Plazas Constitucion and Victoria. He was going to the Bank to deposit it.

A Western paper has the following funeral notice: 'A long funeral cortage wended its solemn way to the cemetery yesterday. The deceased was a man who neglected to buy a nice warm suit of under wear at the Emporium Bazaar. Be wise in time. The store is crowded with lovely ladies, and the spruce clerks are hopping round like fleas on a hot griddle. The very Palace of Fashion. Call before it is too late.'

Two of the monster Dalghren guns have been successfully taken out of the John Potter at Zarate. The operation appears to have been conducted very skilfully. We were greatly afraid that some catastrophe would have occurred, but Major Rosse conducted the workmen with great skill, and saved the situation.

There was shamefully little news in the Montevidean papers to hand yesterday—all 'old horse' from Buenos Ayres, rubbish from the West Coast, and cold hash leaders about the financial compression. The *Democracia* has started an 'Editor's Table,' a serious, solemn, melancholy, slow column, suitable for perusal in the corner of a carriage in a funeral cortege on the way to the cemetery. Advices received at the Mount from Chile state that the British Minister at Santiago has demanded £25,000 damages for the illegal arrest of Captain Hyde of the Tacna, and the outrage on the British flag by taking him from a vessel of that nation.

Cultivation of Tea in India.—Tea is now extensively raised in Hindostan, the exports to England in 1872 exceeding 16,000,000 pounds. The India teas are of rare flavor, and are used by English shopkeepers to mix with the Chinese. The culture in the Indies is now carried on by joint stock companies, which are now paying from ten to twenty per cent. dividends.

SHIPWRECK IN MAGELLAN'S STRAITS.

LOSS OF THE SCHOONER LAURA.

Sandy Point, March 16th, 1874.

We the survivors of the crew of the Laura certify as follows:—On the 27th ult. we set out 6 in number with provisions for 8 days, on a pleasure trip to Magdalen Island. We left there to return next evening, but the wind was contrary and drove us to Quartermaster Island, where we cast anchor.

On Monday, March 2nd., we again set sail and when close to the shore of Tierra del Fuego we were unable to tack and the wind drove us on the beach, where after great difficulty we saved our arms and provisions. We rigged up a tent made of sails, and remained waiting for the weather to abate till Thursday, March 5th, when it became so calm that 3 of our party, Charles Dawson, J. Keyis and J. McGee, ventured in the little boat we had saved to pull to Sandy Point and send us succour.

On Saturday, March 7th, the coal-tug kindly sent for us by Messrs. Nuñez and Lynch arrived, with the Governor on board, and at 4 p.m. we got up steam for Sandy Point, but on nearing the Patagonian coast we broke a boiler pipe, and having no mast or sails did our best to keep her head to the wind, while the wind and tide rose so much that we began drifting out to sea.

On Sunday morning it was blowing NE., and with the aid of some blankets and canvass we contrived to rig up a sail, hoping to reach the colony. Soon the wind changed round west, and came on to blow so hard that we were again driven ashore on the coast of Tierra del Fuego.

For six hours we were in great danger, working at the pumps, with our head to the wind and a blanket for a sail. At last we safely reached the

shore, having thrown overboard the coffee, flour, clothing and everything of weight that was on board. Thanks to the efforts of the engineer, Mr. John Erjeros we succeeded in reaching shore with our lives. At once we set about rigging up tents.

Next morning, Monday March 9th. Dawson, Reynard and John Forest set out afoot in quest of their former camping-ground abreast of Quartermaster Island, about 20 miles from where we were now wrecked. They arrived there the same night much fatigued. On Wednesday, March 11th, three others followed.

On Thursday, March 12th, we had the pleasure to see the schooner Anita under Lieut. Cruz Ramirez, who had come with 6 men to our rescue, having weathered a violent storm on the previous day.

At last on Friday 13th, with a favorable breeze we sailed for Perchet Harbor on the Patagonia coast, and *remained there next day*, passing the night at Cape Negro, and arriving safely at Sandy Point on Sunday March 15th, afteran adventurous absence of 17 days:—

THE AMATEUR FENCING AND GYMNASTIC CLUB.

The half-yearly General Meeting of the above club, was held in the Gymnasium, on Friday evening, the 17th inst.

Mr. Miller, President, in the chair.

The Chairman opened the proceedings by reminding the members, that they had met principally for the purpose of electing a President and Committee for the ensuing term, and examining the accounts of the previous one.

The Secretary having read the minutes of the last General Meeting, which were confirmed, and the balance-sheet which showed the financial position of the club to be in a highly satisfactory condition having been handed round, the voting was then proceeded with, and resulted in the election of the Hon. Sackville West, as President, with the following for the Committee, Messrs. Tyndale, Walkinshaw, Linwood, Goodhall, Burns, and Gibson, with Messrs. Parry and W C. Roberts, as substitutes.

The Chairman informed the members that, owing to his engagements, he thought it unlikely that he would, for a much longer time be able to remain an active member of the club, but assured them be should always take the greatest interest in their progress; in a very enthusiastic speech, he begged the members, each personally, to do their best to preserve the club in its present flourishing condition, pointing out to them, in a few brief, terse sentences, the means by which such a result might be ensured. Mr. Aitkins proposed a vote of thanks to the outgoing President and Committee. Mr. Short seconded the motion and added, 'he thought it was fully deserved,' he especially remarked on 'the great ability and energy shown by Mr. Miller, who, for so long a period as President, had done so much to promote the interests and welfare of the club.'

Mr. Miller briefly returned thanks, and the proceedings terminated.

THE ASSASSIN MOREYRA.

Marcos Paz, April 29th 1874.

To the Editors of the STANDARD.

Gentlemen,

We are so accustomed to see the columns of the daily papers filled with long lists of crime, that such news hardly excites anymore than a momentary feeling of indignation; but when we have the most notorious assassin of the day at our doors, it is time for us to be seriously alarmed with the criminal want of energy on the part of the authorities.

Everyone is aware that the famous murderer, Juan Moreyra, is prowling about the most populous districts of the camp, dealing death and destruction in his path.

For some days back it was known that he was in this vicinity, and I need hardly say that if the Indians had invaded the partido the panic amongst the people would not be greater.

On Sunday last he and two or three associates, equally desperate, were carousing about the station in the most public manner. He went to the 'barberia' to get shaved, and playfully told the barber not to cut his throat.

He and his associates left Marcos Paz on Monday about mid-day, and had scarcely proceeded half-a-league along the Lobos road when they met an unfortunate French 'panadero,' named Jean Marrie, whom they murdered in the most barbarous manner, in broad-day-light, near the old Posta de Gil Diaz, between the 'alambrados' of the Cura Cordoba and Sr. Duran, in the Partido Las Heras. The body of the Frenchman remained for twenty-four hours in the open camp after being discovered, without anyone attempting to remove it.

No one attempted to pursue Moreyra and his followers, though they were seen to ride slowly off after killing the poor baker. Navarro, I believe, has been the scene of Moreyra's most daring and murderous exploits; and it is said that he defied the local police combined with some fifty 'vigilantes' sent out from town expressly to capture him.

It may not be amiss to give a rough description of this now too-celebrated murderer.

Moreyra is a powertully built man, a good deal above the middle height, is of a fair complexion, has a full fat face, large black eyes, is much pock-marked, and looks to be about forty years of age. Add to this: he carries two twelve shot revolvers, two 'trabucos,' an immense 'facon,' a 'puñal,' wears a chain shirt, and always rides a superior horse.

I would now ask how long this monster is to be allowed to roam at large.

N.

ON 'CHANGE.

April 30th 1874

Ounces	400
Sovs	122½
Pats	25
Nat. Bonds	76½
Cedulas.	82¾

This being the last day of the month there was a large business done in Cedulas, the amount marked on the board as the month's liquidation was 5,807,930, but the real liquidation summed up to over 9,000,000; the bulk however of the transactions was closed before hand, and with the sale of 200,000 cash, and delivery of about 250,000 Cedulas, the whole affair was closed; everything was met, everything paid; one broker brought 160,000 pats. to the Bolsa, and took away the stock. In the afternoon Cedulas looked very stiff, but at a late hour the market gain flattened.

The Departure of the Tiber was an event of the day; the mole head was crowded with some of the first men in this market to say good bye to Mr. Charles P. Lumb and his brother Alfred Lumb, who leave for Europe.

Exchange closed for the mail at 49, takers. The Tiber only took about £70,000 in gold, much of which was for Montevideo.

The sales to day were—

Cedulas.

For cash	2,000	82½
do	50,000	82½
do	58,200	82⅝
do	94,000	82¾
May 31	1,000	83
do	10,000	82⅝
do	10,000	82½
do	35,000	82⅝
do	70,000	83

In the liquidation there was a heavy business done in the way of delivery of stock, which lasted to a late hour—

80,000 Cedulas for cash at 82¾.

Sellers at 82¾.

Letters per Senegal state that a deputation of British merchants waited upon Lord Derby at the Foreign office, praying for the mediation of the British Government in the dispute between Brazil and the River Plate. The Minister promised to do all he could in the matter. This is important.

News has been received of the sale of a Rio Grande cargo of hides at 7½, and another at Hamburg at 7⅜, on English terms. Market weaker.

Messrs. Lamport and Holt's steamers Gassendi and Tycho Brahe cleared to-day, taking the following cargoes—

Gassendi for Antwerp and Liverpool—
4,800 salted hides,
3,000 dry do.
60 tons of copper,
150 do. maize.
1,380 bales,
£16,500 specie from Rosario.

Tycho Brahe for Havre and Liverpool—
2,300 salted hides,
2,000 dry do.
763 bales.

In the *Times* of the 2nd of April we find the following?—"The directors of the Mercantile Bank of the River Plate (Limited) have decided to pay a dividend at the rate of 13s. per share, making with the interim dividend paid in September a distribution at the rate of 15 per cent for the year 1873; £10,970 is to be carried to the ordinary reserve fund, and £38,066 to a special reserve fund, leaving £5,613 to be carried forward."

Advices from Rosario report a very active trade going on in Cordova lime. It seems that Mr. Taboada of Cordova has sent forward to Buenos Ayres in the month of April 100,000 arrobas.

The news from Montevideo is bad—a heavy drop in Deuda Interna to-day.

Mr. Arthur Woodgate and Mr. Arthur Towers were welcomed on 'Change to-day from Montevideo; also Mr. Edward Musgrave, who has just returned from Ireland.

The latest from New York gives dry hides at 26½.

There is nothing about the American mail We suppose it comes in the Douro. The Senegal did not touch at Rio.

The Senegal's mails came up this morning and were delivered early, but not in time to be answered by the Tiber. The letters about produce are said to be very good, and some favorable account sales have been received. Orders for wool it was said on 'Change have also come out, but they amount to little now, since our wool stock is so reduced that there is nothing much to sell, and a very large wool business concluded yesterday afternoon has swept off some of the best wools from our deposits.

Great complaints are made on 'Change about the non payment of the Municipal bonds that have been already drawn for amortization, and the attention of the Provincial Government is called to this matter, since, as it appears, the Provincial Government paid over to the Municipality some 2 or 3 weeks ago a very large sum, half a million of paper dollars, for the express purpose of paying off these bonds. Holders of Municipal bonds are most indignant at such conduct, and very properly remark that as the Provincial Government has guaranteed these bonds, it is not enough to hand over the money to the Municipality, but it is also the duty of the Government to see that the money is not misapplied. The present case is really one of the most flagrant on record and greatly calculated to damage the credit of the Provincial Government. The Municipality has given due notice in the papers of the drawing of the Bonds. The 'sorteo' has been held in the usual official way. The numbers of the bonds drawn have been published in the newspapers. The Provincial Government has paid over to the Municipality the money required to meet the amortization; and yet to this day the bonds are not paid: what has the Municipality done with the money? It is to be hoped that the Provincial Finance Minister will see to this matter at once.

The immense amount of property now offering for sale in this market is attracting attention; lands, houses, estancias, chacras, saladeros, even Islands, are in the hands of our auctioneers Even lands in the provinces are now very freely offered in this market. We note that an estancia in the province of San Luis belonging to the estate of the late Mr. Payrredon will be sold by auction on 10th June in this city, 2 square leagues valued at 2,300 pats.

The general belief on 'Change is that on the passage of Don J. R. Gomez's proposed law authorizing the payment of the coupons of the Montevidean Deuda Interna in Buenos Ayres, we shall have that stock quoted daily on the Bolsa here and made the subjects of speculation. It may so fall out, but we doubt it; the Rio here is almost too small for the Cedula stock and any attempt to throw on the market a new stock must prove a failure, unless the price is so low as to induce outsiders to enter. We never recollect a time when there were fewer outsiders dabbling in the market than at present; whether it is the tightness of money, or the fact that other specs pay better, it is hard to say; but certain it is that we have the ring left to itself, and some half dozen of brokers caught in with Cedulas are obliged to bear the whole weight until times change somewhat. The Deuda Interna of Montevideo to get a foot hold here must be thrown up to the market at very low prices, and we doubt if the holders in Montevido are prepared for such a sacrifice. Upon the whole, situated as the money market is at present, it would be just as well for the M.Videans to make a beginning at Rio or somewhere else, for here we have more stock than we can well carry, and there are good stocks he'd in this market which at the moment have hardly a quotation, such as Roads and Bridges Stock, Buschental Bonds, Gas Shares and even National Bonds, once the most speculative stock in this market.

Now that the Tiber's mails are closed brokers are asking how much will the Provincial Bank draw for the Douro. As we have already mentioned, the Provincial Bank means no rivalry to any of the private banks, and simply draws to the market and keep the rate at 49. For a time, however, the Bank was unsuccessful, for we had some of the private banks actually drawing under 48¾, and in fact, the bulk of the private bank Exchange was done under 49 Perhaps if the Provincial Bank could do as the Brazilian Government did some years ago, and publish a notice in the papers stating that it was prepared to draw for a good round sum at 49, it might succeed in keeping up the rate; but in Exchange circles it is said that the Provincial Bank draws but for small amounts and its whole business is but a trifle. This Exchange question is the real question of the day.

There is a great push now going on in telegraphic circles, and preparations for the inauguration of the cable between the Plate and Rio are being made, and medals struck off. Messrs. Lamas & Co., of the Platino-Brazileiro Co., have despatched Mr. Griffiths as special agent in the Tiber to see to the necessary arrangements in Rio. A few days more and we can speak with our friends in the Rua Directa and the Gloria: a step further, we can wire to Para and speak to our friends at the mouth of the Amazon.

The news from Paraguay is very dark; but for the Brazilians the revolutionary troops would have taken Asuncion; they swept everything before them outside the city and actually took the Railway terminus, we hear nothing of Caballero in this last row, and know not on which side he is. Of one thing there seems to be no doubt Jovellanos and his Government would have been 'done for' but for the Brazilians.

As regards the Santa Catalina and Temperley tramway we hear that the cars only run about ½ way, we doubt very much if there is traffic sufficient out there to maintain a tramway; there may be, the district is a wonderful one.

Messrs. Watson and McCallum are the A. T Stewarts of Buenos Ayres; they are now opening their winter goods, and their warehouse 175 Calle Potosi is every day crowded with the wealth and fashion of B Ayres.

Owing to the Government having at last moved in the Riachuelo question, property in the Boca and Barracas district is at last beginning to look up; the Western Railway branch will we hear run right through the potreros, and sites for wharves on the Riachuelo will shortly be in great demand. It is about time that something was done towards turning the dredge to its proper use, and clearing away the mud banks from the mouth of the Riachuelo. Some people hope yet to see Lamport and Holt's steamers alongside the wharf at Barraca de Pena.

The following is the latest wool market report from England, per Senegale:—

"Liverpool, 1st April, 1874.

"The entire stock of River Plate wool in this port has been cleared off, by auction and by private sale, during the last week, the sales amounting to 1,000 bales.

"Excellent prices have been obtained for the merino and mestiza, and we now quote, wool of Liverpool classification, 7¼ to 7¾d. per lb. for average Buenos Ayres, merino, No. 1, and 9½d. per lb. for average Montevideo; good to really choice Montevideo is worth 10½d. to 12d. per lb. It is now clear that consumers were bare of stock when the new clips of wool began to arrive from Australia and the River Plate, and were compelled to buy; and though trade is nowhere very profitable, we see no reason to expect any material alteration in the price of River Plate wool during the next six months; it is now relatively cheaper than any other description of clothing wool.

"Bad trade at Bradford caused a fall of ½d. per lb. in the value of Cordova, but at this decline it sold freely, and we consider it safe at present prices, which are 7½d. to 7¾d. per lb. for ordinary to good unwashed Cordova and Santiago.

"The business in sheepskins since the last auctions has been confined to 350 bales at a shade over the auction rates. We quote—entire invoices of full-woolled matadero Buenos Ayres, 7¾d. per lb. The stock here is sufficient to prevent much change in prices during the next three months, except a demand set in from the United States, of which there is at present not the slightest sign. The next skin auctions will be held on the 21st and 22nd inst. We enclose resume of the business done in wool during the past week."

SAVINGS BANK
BANK MAUA AND CO.
101--Calle Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangall from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its ndighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,
M. A. DE FREITAS AMORIM,
E. DE LAS CARRERAS.

CONDITIONS.

First—The Bank receives at interest any sum [illegible] dollars currency or one Silver [illegible]

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

FIRST PRIZE MEDAL—Dublin Exhibition, 1872.

Official Report, London International Exhibition, 1871.

"Mr. Bailey exhibits samples of well-made chemical ware, highly vitreous and durable consisting of acid tanks, retorts, receivers, condensing worms, and other vessels. His contribution comprises among many other things, an ingenious ascension Filter, in which, by a certain arrangement of stoneware discs in the interior, the water is more exposed to the filtering material than in ordinary filters.

N.B.—No Prizes were offered at this Exhibition. cj—f12

ROWLAND'S MACASSAR OIL, prevents the hair falling off or turning grey, strengthens weak hair, causes it to grow on bald places, and makes it beautifully soft pliable, and glossy. Price 3s. 6d., 7s., 10s 6ds equal to four small, and 21s. per bottle.

IMPORTANT CAUTION—Ask for Rowland's Macassar Oil, and avoid all other cheap articles under the same or similar names as spurious imitations. Each bottle has a glass stopper instead of the cork as formerly. All with the cork are spurious imitations.

ROWLAND'S KALYDOR removes cutaneous disfigurements, freckles, and tan, and imparts a healthy and blooming appearance to the skin. During the heat and dust of summer especially, and in cases of sunburns and stings of insects, it is of the utmost use. Price 4s. 6d., and 8s 6d. per bottle. Ask for "Rowland's Kalydor."

ROWLAND'S ODONTO, or Pearl Dentrifice, preserves and imparts a pearl-like whiteness to the teeth, eradicates tartar and spots of incipient decay, strengthens the gums, and gives a pleasing fragrance to the breath. Price 2s. 9d. per box. Ask for "Rowlan's Odonto."

ROWLAND'S ESSENCE of TYRE, never fails to produce immediately a perfect change in red or grey hair, whiskers, eyebrows, &c., to a beautiful glossy and permanent brown or black, which colour remains so durable, that neither washing nor perspiration can remove it. Price 4s., 7s, 6d., and 10s. 6d, per bottle.

All these articles have been used and justly, appreciated by all the Sovereigns and Courts of Europe, the Pope of Rome, and the aristocracy of the world, during the last 70 years, being of inestimable value to those who have once used them. They are sold by all chemists, perfumers, and bazaars throughout India, Australia, the Colonies, and South America.

DYSENTERY, CHOLERA, FEVER AND COUGHS, COLDS, &c.

DR. J. COLLIS BROWNE'S
(Ex Army Med. Staff)
CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. COLLIS BROWNE was undoubtedly the Inventor of CHLORODYNE but the story of the Defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne, that they proscribe it largely, and mean no other than Dr. Browne's.—*The Times*, July 12, 1864.

The Public, therefore, are cautioned against using any other than
DR. J. COLLIS BROWNE'S CHLORODYNE

REMEDIA, USES AND ACTION.

THIS INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while Medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, *Asthma*, Rheumatism, Neuralgia, Cough, Cramp, Hysteria, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport hat he had received information to the effect that he only remedy of any service in Cholera was Chlorodyne.—See *Lancet* Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay:—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentry. To it I fairly owe my restoration to health after 18 month's severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports [Dec. 1865] that nearly every case of Cholera in which Dr. J. Collis Browne's Chlorodyne was administered the patient recovered.

Extract from *Medical Times*, Jan. 12, 1866.—"Chlorodyne is prescribed by scores of orthodox medical practitioners. Of course it would no thus be singularly popular did it not 'supply a want and fill a place.'"

Extract from the General Board of Health London, as to its efficacy in Cholera.—"So strong are we convinced of the immense value of his remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

Beware of spurious and dangerous compounds sold as CHLORODYNE, from which frequent fatal results have followed.

See leading article, *Pharmaceutical Journa* Aug. 1, 1869, which states that Dr. J. Collis Browne was the Inventor of Chlorodyne; that is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr. J. Collis Browne" on the Government stamp. Overwhelming medical testimony accompanies each bott'

BEST FOOD FOR INFANTS.—"H.R.H. Prince Albert Victor thrives so well upon it that it must be very good."—T. M. Kendall, Medical Attendant to H.R.H. the Princess of Wales. It combines the most valuable "Flesh and Bone-forming Substance," and differs essentially from other farinaceous food., which being quite unable to afford proper nourishment to a growing infant, frequently lead to a rickety and idiotic condition.
